*Making the business
of medicine easier.*

QUALITY
S C R I B E

Quality Scribe is a medical transcription service that provides quality transcription to healthcare providers.

Pledge of Quality

We deliver 100% accurate reports across all specialties. Our staff physicians review your transcripts before they are returned to you, assuring that the information is correct. You can count on our accuracy. In fact we guarantee it! We will not charge for reports that contain even one incorrect character.

Turn-Around

Our turn-around time is within twelve hours from the moment we receive your dictations. Our transcribers receive alerts as soon as you upload your dictations. From that moment, we work on your reports until your tran-

scriptions are finished and returned.

Convenience

Our interactive website allows you to upload your dictations, and also download, view and print your transcripts from any computer connected to the internet. Your account is accessible 24-hours a day, 7 days-a-week.

Privacy

Concern for your privacy is extremely important to us. That is why only you can access your respective folders. Your entire data transfer is done in a secure, HIPAA compliant environment using 128-bit encryption.

Permanent Archiving

We provide you with a permanent archive of your transcripts through our website. This enables you to retrieve all of your dated documents anywhere, anytime!

Affordable

Our cost is very competitive. We offer a standard 65 character line fee or a small monthly fixed rate package for small group practices.

Free 30 Day Trial

We are confident that you will be impressed with our quality and service. Please accept our invitation to try Quality Scribe for 30 days with absolutely no cost or obligation.

We believe that you deserve the very best quality... Quality Scribe.
